

BravadoWorks develops AI-powered creative production software, workflow automation tools, and digital media projects. The company builds **Supervisor**, a studio operations platform for managing AI-assisted creative workflows, production tools, and project operations, and develops original digital media and intellectual property including **Viridian Knights**.

CORE COMPETENCIES

- AI workflow automation and local-first studio operations systems
- Custom software / developer tools for creative production pipelines
- Digital media production workflows for Blender, Unreal Engine, ComfyUI, and related tools
- Project dashboards, job queues, health checks, artifact tracking, and approval gates
- AI model-operations strategy, routing policies, evaluation harnesses, and human-in-the-loop governance
- Technical documentation, training materials, capability packets, and process design for creative teams

DIFFERENTIATORS

- Built around real solo-creator constraints: limited desk time, remote monitoring, and production automation.
- Demonstrated adapter pattern across DCC, development, and render-lane workflows: health check, smoke test, sidecar, artifact, and chat status.
- Strong governance model: approval gates, audit trails, source citations, canon protection, and no-silent-failure rules.
- Two-product structure: Supervisor as software platform; Viridian Knights as original IP / media proving ground.

RELEVANT SERVICES FOR PUBLIC SECTOR / PARTNERS

- Workflow automation and internal operations tooling
- AI-assisted documentation, training, and knowledge organization
- Software prototyping, dashboarding, and process modernization support
- Digital media, educational content, production planning, and technical storytelling

CURRENT PROOF OF CAPABILITY

- Supervisor: local AI studio operations platform with provider routing, job tracking, artifact surfacing, and DCC adapter proofs.
- Production adapter proofs: ComfyUI, Blender, Unreal, VS Code, and Marvelous Designer readiness stages.
- Viridian Knights: original sci-fi IP used as a production testbed for AI-assisted worldbuilding, visual canon, and CGI pipeline work.

COMPANY DATA

Legal Name: BRAVADOWORKS LLC
Business Type: Louisiana LLC
Ownership: 100% Black-owned, single-member
Management: Member-managed
Year Established: 2026
Website: bravadoworks.space
Location: New Orleans, LA
EIN: On file

CERTIFICATIONS & REGISTRATIONS

Louisiana SEBD Certified | Hudson Initiative Certified
LED SmallBiz ID #31244
Louisiana State Vendor #0310331147
SEBD: 04/30/2026 – 04/30/2036
Hudson Initiative: 04/30/2026 – 04/30/2027
UEI / CAGE: Pending

RECOMMENDED NAICS

- 541511 — Custom Computer Programming Services
- 541512 — Computer Systems Design Services
- 541519 — Other Computer Related Services
- 541430 — Graphic Design Services
- 512110 — Motion Picture and Video Production
- 541613 — Marketing Consulting Services
- 611420 — Computer Training

RELEVANT UNSPSC

- 43232400 — Development software
- 43233700 — System management software
- 43232100 — Content authoring / editing software
- 43232200 — Content management software
- 81111500 — Software or hardware engineering
- 81112200 — Software maintenance and support
